Archivists and curators from the Tennessee State Library and Archives and the Tennessee State Museum will be in Knoxville on August 15th & 16th to record and digitize Civil War memorabilia for an online exhibit commemorating the 150th anniversary of the Civil War.

Area residents can bring in original Civil War era photographs, documents and other artifacts to the East Tennessee History Center, 601 S. Gay Street, during the times listed above. Items will be scanned or photographed and returned to the owner within an hour.

Contributors receive copies of the digital images and guidance on how to care for and preserve their items.
